

The Sky's The Limit When Your Cybersecurity Is First Class

The World's Most Tested, Most Awarded Security

Smaller businesses face many of the same security threats as large enterprises, without the same resources to deal with them. Kaspersky Lab's SMB solutions specifically offers small businesses multiple layers of protection without the need for specialized IT security staff.

Next Generation Cybersecurity for Businesses like Yours

Kaspersky Small Office Security

Provides maximum security with minimum fuss, delivering multiple layers of protection in one simple-to-use package.

 Small businesses

 Medium businesses

 Medium to large companies

Kaspersky Endpoint Security for Business

Industry leading anti-malware protection combined with powerful web, application and device controls to provide scalable, multi-layered protection against the most sophisticated threats.

Kaspersky Endpoint Security Cloud

Strong on protection. Easy on management. Manage security for multiple endpoints, mobile devices and file servers remotely, from anywhere.

Targeted Security Solutions

A cost-effective way to solving specific security task by accessing Kaspersky Lab technologies exactly where you need them.

Fully Tested, Fully Secured

In the first half of 2017, Kaspersky Lab SMB solutions have once again come top in independent tests, and gained further recognition from leading global security analysts. Here are the tests our products excelled at.

- Top results in protection, performance and usability testing
- Complete self-protection and defence against unsafe distribution channels
- Best protection against zero-day malware attacks and best detection of the most recent widespread malware

- Best detection of real-time threats and protection against targeted attacks

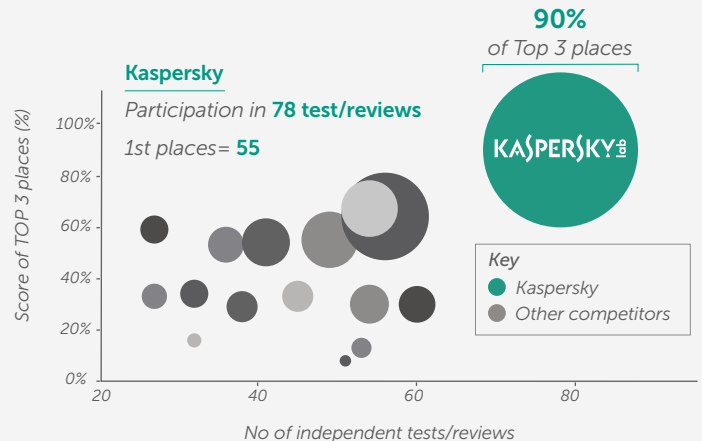

- 100% detection and blocking of test samples in the comparative efficiency assessment of enterprise security suites against in-the-wild ransomware

Top Performer in Independent Tests

Kaspersky Lab continues to outperform the competition in its TOP3 metric for internet security – a metric that accumulates all test scores throughout the year – achieving the top spot for the fourth year in a row in 2016. Kaspersky Lab products have achieved the highest percentage (90%) of top-three places in testing of independent research labs compared to any other vendor - <https://www.kaspersky.com/top3>

2 1 3 Gartner's Magic Quadrant Leader for 6 Years Running

Kaspersky Lab has been positioned in the "Leaders" quadrant of the 2017 Gartner Magic Quadrant for Endpoint Protection Platforms, based on the criteria for "completeness of vision" and "ability to execute".

This is the sixth time in a row that Kaspersky Lab has been positioned as a Leader by Gartner.
